STOP-AND-FRISK 2011

NYCLU BRIEFING

The February 1999 shooting death of Amadou Diallo by police officers in the NYPD's Street Crimes Unit triggered a broad public controversy about racial profiling and stop-and-frisk that continues to this day. Not only did the shooting prompt widespread protests, but it led the New York State Attorney General's Office to conduct a detailed study of NYPD stop-and-frisk activity and led the New York City Council to enact legislation requiring the Police Department to provide quarterly reports about stop-and-frisk activity.

Following a lapse of several years without any NYPD reporting, repeated requests from the New York Civil Liberties Union and others forced the Department to disclose in March 2007 that stops had mushroomed from 97,296 in 2002 to more than 500,000 in 2006. Since then, the NYCLU has released quarterly reports compiled by the NYPD revealing that stops have continued to increase dramatically, with the nearly 700,000 stops last year being seven times as many stops as in 2002.

Beyond the quarterly paper reports, the NYPD also maintains a computerized database of its stop-and-frisk program. Having successfully sued the NYPD to obtain the database, the NYCLU can provide a much more detailed picture of the stop-and-frisk program than is provided by the quarterly reports. While those reports are largely limited to providing basic numbers about stops, summonses (tickets), and arrests each quarter, the database allows one to analyze the stop-and-frisk program for the entire year and to examine in detail stops, frisks, the use of force, and the recovery of weapons. Analyzing the database also provides detailed information at a precinct level and allows one to look much more closely at race-related aspects of stop-and-frisk.

In this report the NYCLU provides a detailed picture of the NYPD's stop-and-frisk program in 2011. This report examines stops, frisks, force, race, the recovery of weapons, and the treatment of the hundreds of thousands of innocent people stopped last year.

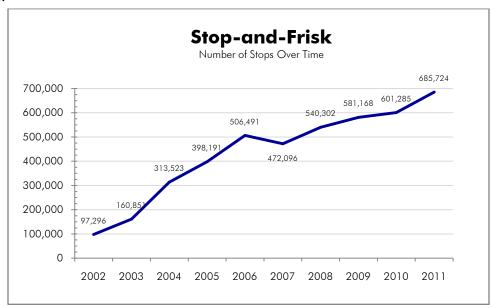

DATA HIGHLIGHTS

- The 685,724 stops in 2011 (an increase of 14 percent from 2010) were spread unevenly amongst the city's 76 precincts, with the 75th Precinct (East New York) leading the city with 31,100 stops. Setting aside the Central Park Precinct (22nd), the 94th Precinct (Greenpoint) had the fewest stops at 2,023.
- In 70 out of 76 precincts, black and Latino New Yorkers accounted for more than 50 percent of stops, and in 33 precincts they accounted for more than 90 percent of stops. In the 10 precincts with the lowest black and Latino populations (such as the 6th Precinct in Greenwich Village), blacks and Latinos accounted for more than 70 percent of stops in six of those precincts.
- Young black and Latino men were the targets of a hugely disproportionate number of stops. Though they account for only 4.7 percent of the city's population, black and Latino males between the ages of 14 and 24 accounted for 41.6 percent of stops in 2011. The number of stops of young black men exceeded the entire city population of young black men (168,126 as compared to 158,406). Ninety percent of young black and Latino men stopped were innocent.
- Though frisks are to be conducted only when an officer reasonably suspects the person has a weapon that might endanger officer safety, 55.7 percent of those stopped were frisked. Of those frisked, a weapon was found only 1.9 percent of the time.
- Frisks varied enormously by precinct, with officers in the 46th Precinct in the Bronx frisking people 80.4 percent of the time, as compared to a low of 27.5 percent in the 17th Precinct on the East Side of Manhattan.
- Black and Latino New Yorkers were more likely to be frisked than whites and, among those frisked, were less likely to be found with a weapon.
- In 2011 as compared to 2003 (the earliest year a gun recovery figure is available), the NYPD conducted 524,873 more stops but recovered only 176 more guns. This amounts to an additional recovery rate of three one-hundredths of one percent.
- Of the 605,328 stops of innocent people in 2011, 53.6 percent were frisked. The 75th Precinct led the city in stops of innocent people with 27,672 such stops. Excluding the Central Park Precinct, the 94th Precinct had the fewest with 1,843.

I. OVERVIEW

As the NYCLU previously disclosed, the NYPD conducted nearly 700,000 stops in 2011. The total of 685,724 stops marked an increase of 84,439 (14 percent) stops from 2010. During the 10 years of the Bloomberg administration, there have been 4,356,927 stops. Annual stops have been as follows:

The number of stops in 2011 varied widely by precinct. The 75th Precinct (East New York) led the city with 31,100 stops. Excluding the Central Park Precinct (22nd), the 94th Precinct (Greenpoint) had the fewest stops at 2,023. The top and bottom five precincts are as follows:

Stop-and-Frisk 2011 Total Stops						
Top 5 Bottom 5				Bottom 5		
Precinct	Neighborhoods	Stops	Precinct	Neighborhoods	Stops	
75	East New York, Starret City*	31,100	50	Riverdale, Fieldston, Kingsbridge*	2,683	
73	Brownsville, Ocean Hill*	25,167	17	Kipps Bay, Murray Hill, Turtle Bay	2,060	
115	Jackson Heights*	18,156	123	Tottenville, Bay Terrace	2,027	
40	Mott Haven, Melrose*	17,690	94	Greenpoint	2,023	
90	Williamsburg	17,566	22	Central Park	1,416	

*Majority black and Latino precincts.

When stops are measured as a percentage of precinct populations, there again is a wide range

among precincts. Setting aside one atypical precinct,¹ the 73rd Precinct (Brownsville) had the greatest percentage of stops as measured against its population with stops representing 29.1 percent of the total population, while the 66th Precinct (Borough Park) had the lowest percentage at 2 percent. The top and bottom five precincts are as follows:

Stop-and-Frisk 2011 Total Stops as a Percentage of the Population							
Top 5				Bottom 5			
Precinct	Neighborhoods	Stops	Precinct	Neighborhoods	Stops		
73	Brownsville, Ocean Hill*	29.1%	19	Upper East Side	2.5%		
23	East Harlem (south)*	23.9%	62	Bensonhurst	2.4%		
81	BedStuy (east)*	21.8%	68	Bay Ridge, Dyker Heights	2.3%		
41	Hunts Point*	21.7%	123	Tottenville, Bay Terrace	2.1%		
25	East Harlem (north)*	20.9%	66	Borough Park, Kensington	2.0%		

^{*}Majority black and Latino precincts. Central Park excluded due to lack of demographic data.

As in past years, the most common reason given in 2011 for stops was "furtive movement," with officers identifying this as a reason in more than half of all stops (51.3 percent, or 351,739 stops). The reasons identified for stops in 2011 break down as follows:

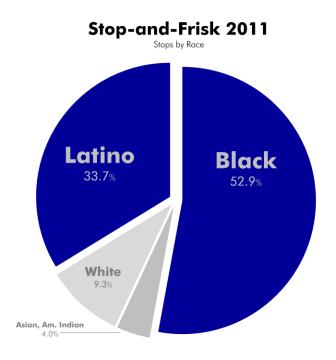

Stop-and-Frisk 2011 Reasons for a Stop					
Reason	Stops	% of Total Stops			
furtive movements	351,739	51.3%			
casing a victim or location	222,960	32.5%			
acting as a lookout	124,738	18.2%			
fits a relevant description	108,918	15.9%			
violent crime suspected	71,676	10.5%			
suspicious bulge	55,063	8.0%			
actions of a drug transaction	50,220	7.3%			
clothes commonly used in a crime	31,555	4.6%			
carrying a suspicious object	16,328	2.4%			
other	112,970	16.5%			

Note: An officer may check more than one reason for a stop.

¹The precinct with the highest stop percentage when measured against population is the Midtown South Precinct (14th) in the Times Square area, with a stop percentage of 51.6 percent. Because this precinct sees enormous influxes of people who are not residents, however, the NYCLU has excluded this precinct from this particular analysis (but only from this analysis).

It is notable that "violent crime suspected" was a reason listed in only 10.5 percent of stops. The NYPD routinely argues that the disproportionate number of stops of black people is justified because blacks are disproportionately involved in violent crimes. Given that nearly 90 percent of stops have nothing to do with a suspected violent crime, the race of those involved in violent crime generally cannot explain the disproportionate number of black New Yorkers stopped every year.

As has been true throughout the Bloomberg administration, black and Latino New Yorkers were overwhelmingly the targets of stop-and-frisk activity in 2011. Of the 685,724 stops last year, 350,743 (52.9 percent) were of blacks, and 223,740 (33.7 percent) were of Latinos. Conversely, whites accounted for only 61,805 (9.3 percent) of the stops.

In 70 out of 76 precincts blacks and Latinos accounted for more than half of all stops. Led by the 46th and 42nd Precincts in the Bronx with 98.5 percent of black and Latino stops, there were 33 precincts where more than 90 percent of those stopped were black and Latino. By contrast, the lowest percentage was in the 123rd Precinct (Tottenville on Staten Island) where 14.8 percent of

5

²In a negligible number of cases, race and age information is not recorded in the database. Throughout this report, percentages of race and age are percentages of those cases where race and age are recorded, not of all stops.

those stopped were black or Latino. The top and bottom five precincts are as follows:

Stop-and-Frisk 2011 Black and Latino Stops as a Percentage of Total Stops						
Top 5				Bottom 5		
Precinct	Neighborhoods	Black, Latino	Precinct	Neighborhoods	Black, Latino	
46	Univ Hts, Morris Hts, Fordham*	98.5%	61	Sheepshead Bay	47.2%	
42	Morrisania, Corona Park East*	98.5%	62	Bensonhurst	40.4%	
40	Mott Haven, Melrose*	98.4%	68	Bay Ridge, Dyker Heights	37.4%	
44	Concourse, Highbridge*	98.1%	122	New Dorp, Todt Hill, Bloomfield	34.6%	
67	East Flatbush*	98.1%	123	Tottenville, Bay Terrace	14.8%	

*Majority black and Latino precincts.

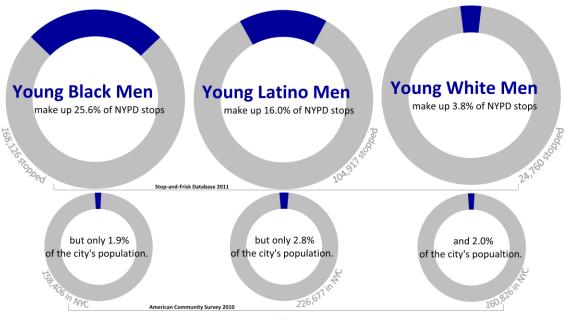

The NYPD often seeks to justify the high percentage of stops of black and Latino New Yorkers by contending that those high percentages merely reflect the concentration of stop-and-frisk activity in high-crime precincts that are black and Latino. While there are many responses to this contention that are beyond the scope of this report, the 2011 data are striking in what they reveal about the large percentages of blacks and Latinos being stopped in precincts that have substantial percentages of white residents.

For instance, the population of the 17th Precinct, which covers the East Side of Manhattan, has the lowest percentage of black and Latino residents in the city at 7.8 percent, yet 71.4 percent of those stopped in the precinct were black or Latino. Similarly, the 6th Precinct, covering Greenwich Village, is 8 percent black and Latino, yet 76.6 percent of stops in that precinct were of blacks and Latinos. The figures for the 10 precincts with the lowest black and Latino populations are as follows:

Stop-and-Frisk 2011 Stops in the 10 Lowest Black and Latino Precincts						
'						
Precinct	Neighborhoods	Black, Latino Population* (out of total residents)	Black, Latino Stops (out of total stops)			
17	Kipps Bay, Murray Hill, Turtle Bay	7.8%	71.4%			
6	Greenwich Village, Soho	8.0%	76.6%			
19	Upper East Side	9.0%	71.0%			
123	Tottenville, Bay Terrace	9.4%	14.8%			
1	Financial District, Tribeca	10.0%	75.7%			
61	Sheepshead Bay	11.5%	47.2%			
111	Bayside, Douglaston, Little Neck	12.1%	47.6%			
20	Upper West Side (south)	12.1%	71.6%			
13	Gramercy, Stuyvesant Town	13.8%	71.4%			
62	Bensonhurst	14.1%	40.4%			

^{*}Population data from the 2010 Census.

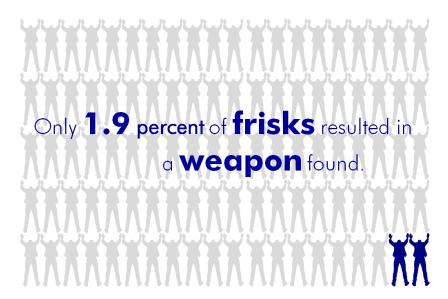

Young black and Latino males were the targets of a hugely disproportionate number of stops in 2011. While black and Latino males between the ages of 14 and 24 account for only 4.7 percent of the city's population, they accounted for 41.6 percent of those stopped. By contrast, white males between the ages 14 and 24 make up 2 percent of the city's population but accounted for 3.8 percent of stops. Remarkably, the number of stops of young black men last year actually exceeded the total number of young black men in the city (168,126 as compared to 158,406).

II. FRISKS AND FORCE

Though the term "stop-and-frisk" is often used, stops and frisks are two separate acts that involve two different levels of required legal justification. To stop a person, a police officer must have reasonable suspicion the person has committed, is committing, or is about to commit an unlawful act. To frisk a person, however, the officer must have reason to believe the person stopped has a weapon that poses a threat to the officer's safety, a higher and more specific standard.

Data from 2011 stops indicate that NYPD officers are routinely frisking people without suspicion that the person has a weapon. Of the 685,724 stops last years, officers conducted frisks in 381,704 of them, or 55.7 percent of all stops.³ While this figure alone strongly suggests that officers are engaging in far too many frisks, the concern that officers are unjustifiably frisking people is clearly demonstrated by the fact that weapons were found in only 1.9 percent of the instances in which frisks were conducted in 2011.

The number of frisks and frisk rates varied enormously by precinct. The precinct with the most frisks was the 75th Precinct in Brooklyn with 16,802, while (setting aside the Central Park Precinct) the precinct with the fewest was the 17th Precinct on the East Side of Manhattan with 566. The precinct with the highest frisk rate was the 46th Precinct in the Bronx, where 80.4

³ In 58,363 stops (8.5 percent of all stops), officers conducted full searches of the person stopped.

percent of stops had frisks; at the bottom was the 17th Precinct, with a frisk rate of 27.5 percent. The top and bottom five precincts in frisks and frisk rates are as follows:

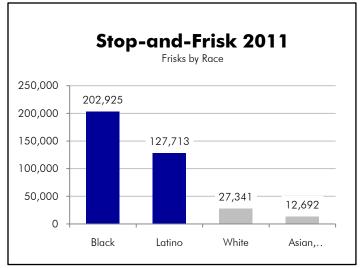

Stop-and-Frisk 2011 Number of Frisks Top 5 **Bottom 5** Neighborhoods Frisks Neighborhoods Frisks Precinct Precinct 75 East New York, Starret City* 16,802 94 Greenpoint 1,050 Brownsville, Ocean Hill* 73 13,338 18 Midtown, Theatre District 1,007 Concourse, Highbridge* 13,137 Tottenville, Bay Terrace 791 44 123 Kipps Bay, Murray Hill, Turtle Hill Jackson Heights* 13,058 115 17 566 40 Mott Haven, Melrose* 11,114 22 Central Park 444

*Majority black and Latino precincts.

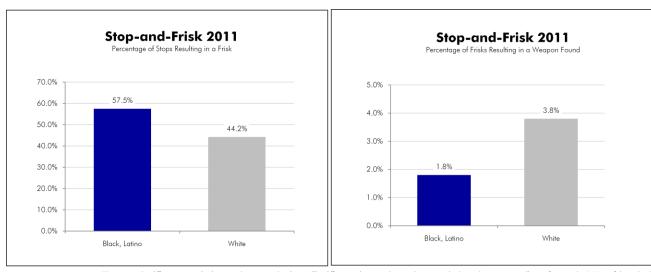

Stop-and-Frisk 2011 Frisks as a Percentage of Total Stops							
Top 5					Bottom 5		
Precinct	Neighborhoods	Frisks		Precinct	Neighborhoods	Frisks	
46	Univ Hts, Morris Hts, Fordham*	80.4%		22	Central Park	31.4%	
44	Concourse, Highbridge*	77.7%		84	Brooklyn Hts, DUMBO, Boerum Hill	31.3%	
101	Far Rockaway*	76.8%		20	Upper West Side (south)	30.5%	
110	Elmhurst, South Corona*	72.8%		18	Midtown, Theatre District	27.7%	
115	Jackson Heights*	71.9%		17	Kipps Bay, Murray Hill, Turtle Bay	27.5%	

*Majority black and Latino precincts.

Given that far more black and Latino New Yorkers were stopped in 2011, one would expect that more blacks and Latinos would be frisked, and that was true. Of the 381,704 frisks, 330,638 (89.2 percent) were of blacks and Latinos. By contrast, only 27,341 frisks (7.4 percent) were of whites.

What one would not expect and what raises further concerns about racial bias in the NYPD's stop-and-frisk program is that blacks and Latinos were <u>more likely</u> to be frisked and, among those frisked, are far <u>less likely</u> to be found with a weapon. Of blacks and Latinos who were stopped, 57.5 percent were frisked, while 44.2 percent of whites who were stopped were frisked. Yet, a weapon was found in only 1.8 percent of blacks and Latinos frisked, as compared to a weapon being found in 3.8 percent of whites frisked. These figures strongly indicate that race is a factor in officer decisions to frisk a person.

*Please note the difference in scales between the two graphs above. The differences between the racial groups in both graphs are statistically significant at the 99% confidence level.

In some circumstances, officers are authorized to use physical force in conjunction with a stop. On the form officers complete in conjunction with stops (known as a UF-250), they are to indicate if force is used and, if it is, to check one of the following boxes: hands on suspect, suspect on ground, pointing firearm at suspect, handcuffing suspect, suspect against wall/car, drawing firearm, baton, pepper spray, and other. In 148,079 of recorded stops (21.6 percent) in 2011, at least one act of force was recorded. In many cases more than one act of force was used, with a total of 179,707 acts of force being used in those 148,079 stops. The incidents of force used in 2011 break down as follows:

Incidents of Physical Force

Type of Force	Incidents	% of Total Incidents
hands on suspect	126,406	70.3%
handcuffing suspect	23,070	12.8%
suspect against wall/car	20,854	11.6%
suspect on ground	2,384	1.3%
pointing firearm at suspect	1,748	1.0%
drawing firearm	1,230	0.7%
pepper spray	107	0.1%
baton	87	0.0%
other	3,821	2.1%
Total	179,707	100.0%

Note: An officer may use more than one type of force during a stop. These incidents represent each use of force and do not reflect the number of stops where force was used.

The use of force varied widely across the city. In terms of number of acts of force, the 44th Precinct in the Bronx had the most with 8,413, while the Central Park Precinct (the 22nd) had the fewest at 119. In terms of frequency of force being used, it was most common in the 46th Precinct in the Bronx, where force was used in 57.7 percent of stops. By contrast, force was used in only 4.7 percent of stops in the 111th Precinct in Queens (Bayside, Douglaston, Little Neck). The top and bottom five precincts by force used and force rates are as follows:

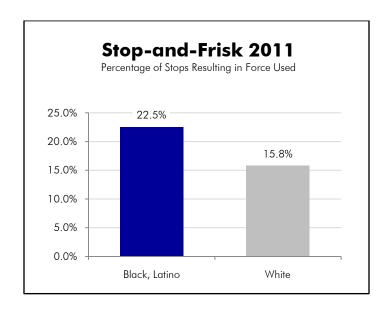

Stop-and-Frisk 2011 Number of Stops Where Force Was Used						
Top 5				Bottom 5		
Precinct	Neighborhoods	Force		Precinct	Neighborhoods	Force
44	Concourse, Highbridge*	8,413		62	Bensonhurst	255
46	Univ Hts, Morris Hts, Fordham*	7,917		94	Greenpoint	255
115	Jackson Heights*	7,470		111	Bayside, Douglaston, Little Neck	218
75	East New York, Starret City*	6,119		123	Tottenville, Bay Terrace	124
32	Central Harlem (north)*	5,805		22	Central Park	119

*Majority black and Latino precincts.

Stop-and-Frisk 2011 Stops Where Force Was Used as a Percentage of Total Stops Top 5 **Bottom 5** Precinct Neighborhoods Force Precinct Neighborhoods Force 46 Univ Hts, Morris Hts, Fordham* 57.7% 88 Fort Greene, Clinton Hill* 6.7% 44 Concourse, Highbridge* 49.8% 90 Williamsburg 6.4% 32 Central Harlem (south)* 45.1% 123 Tottenville, Bay Terrace 6.1% 115 Jackson Heights* 41.1% 62 Bensonhurst 5.8% 4.7% 52 Bedford Pk, Fordham, Norwood* 38.9% 111 Bayside, Douglaston, Little Neck

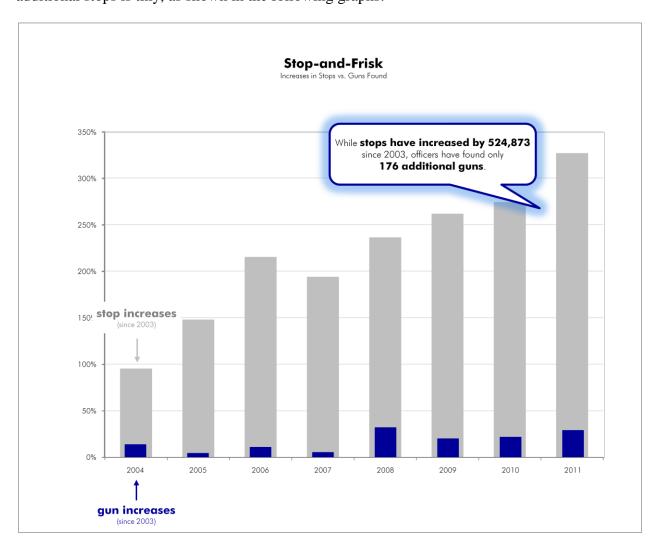

*Majority black and Latino precincts.

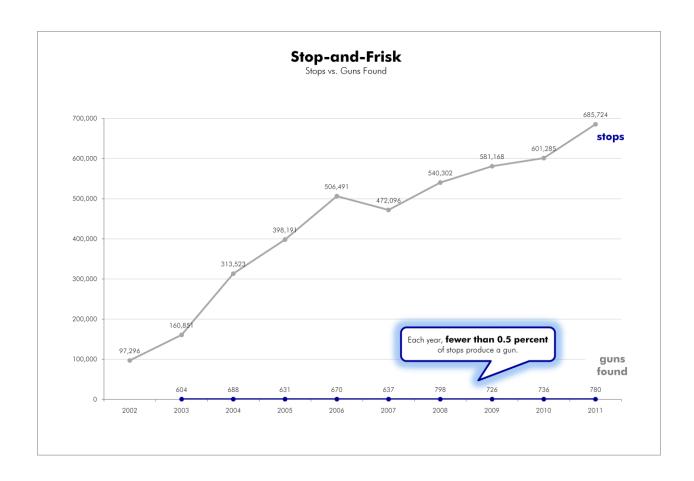

Far more black and Latino New Yorkers had force used against them in 2011 than did whites (129,590 as compared to 9,765). This is not simply the result of more blacks and Latinos being stopped. Rather, NYPD data show that blacks and Latinos who are stopped are significantly more likely to have force used against them than are whites, as shown by the chart below:

III. GUN RECOVERY

The NYPD has increasingly sought to justify the large number of stops on the grounds that the stop-and-frisk program is critically important to recovering guns. In making this claim, the Department has noted that in 2011 stop-and-frisk resulted in the recovery of 780 guns. The Department's citation to the 780 figure is significantly misleading, however, when used in attempt to justify the increase in stops during the Bloomberg administration. In truth, while the number of stops has increased enormously since 2003 (the earliest year for which a gun recovery figure is available), the number of <u>additional</u> weapons being recovered as a result of those additional stops is tiny, as shown in the following graphs:

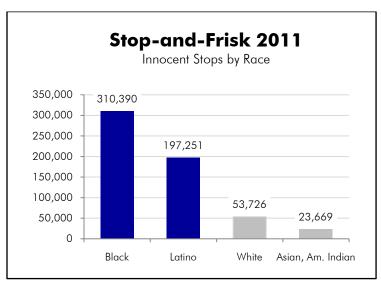

Comparing 2011 to 2003 illustrates this point. In 2003 the Department recovered 604 guns when it conducted 160,851 stops. In 2011 the Department conducted an additional 524,873 stops (for a total of 685,724). Yet those additional stops yielded only 176 more guns than were recovered in 2003 (780 compared to 604).

The additional half-million plus stops saw a gun recovery rate of only three one-hundredths of one percent. Cast somewhat differently, stops in 2003 resulted in one gun recovered for every 266 people stopped. The additional 524,873 stops in 2011 (above the 2003 level) resulted in just one gun recovered for every 2,982 additional people stopped.

IV. STOPS OF INNOCENT PEOPLE

Of the 685,724 stops in 2011, 605,328 were of people who had engaged in no unlawful behavior as evidenced by the fact they were not issued a summons nor arrested. Of those, 310,390 were black (53.1 percent), 197,251 Latino (33.7 percent), and 53,726 white (9.2 percent). Young black and Latino males bore the brunt of these stops, accounting for 242,317 stops of innocent people (42.9 percent).

In the 75th Precinct in Brooklyn, there were 27,672 stops of innocent people, the highest number of any precinct in the city. By contrast, the 1,843 stops of innocent people in the 94th Precinct (Greenpoint) marked the lowest number of any precinct in the city (excluding the Central Park Precinct). The top and bottom five precincts are as follows:

Stop-and-Frisk 2011 Number of Innocent Stops							
Top 5					Bottom 5		
Precinct	Neighborhoods	Force	F	Precinct	Neighborhoods	Force	
75	East New York, Starret City*	27,672		50	Riverdale, Fieldston, Kingsbridge*	2,141	
73	Brownsville, Ocean Hill*	22,365		17	Kipps Bay, Murray Hill, Turtle Bay	1,909	
115	Jackson Heights*	16,576		123	Tottenville, Bay Terrace	1,844	
90	Williamsburg	16,314		94	Greenpoint	1,843	
23	East Harlem (south)*	15,969		22	Central Park	1,252	

*Majority black and Latino precincts.

The highest percentage of stops that were of innocent people came in the 72nd Precinct (Sunset Park, Windsor Terrace), where 94.4 percent of people stopped were innocent. The lowest percentage was in the 32nd Precinct (Central Harlem), though even there 74.6 percent of the stops were of innocent people. The top and bottom five precincts are as follows:

Stop-and-Frisk 2011 Innocent Stops as a Percentage of Total Stops							
	Top 5				Bottom 5		
Precinct	Neighborhoods	Force	_	Precinct	Neighborhoods	Force	
72	Sunset Park, Windsor Terrace	94.4%		9	East Village	81.1%	
67	East Flatbush*	93.9%		88	Fort Greene, Clinton Hill*	80.7%	
69	Canarsie*	92.9%		24	Upper West Side (north)	80.5%	
90	Williamsburg	92.9%		50	Riverdale, Fieldston, Kingsbridge*	79.8%	
17	Kipps Bay, Murray Hill, Turtle Bay	92.7%		32	Central Harlem (north)*	74.6%	

*Majority black and Latino precincts.

More than half of the innocent people stopped were frisked (324,700, or 53.6 percent), and nearly 20 percent of them had force used against them (119,163, or 19.7 percent).
